Alcohol: 14.3%

Production Notes:

The fruit was de-stemmed only so that whole berries were transferred to open top fermenters, to help capture bright fruit aromas and flavors. After 5 days of a cold soak the tanks were warmed which allowed the juice to ferment naturally.

The tanks were punched down 2-3 times per day for 10 days allowing skin contact for color and flavor extraction. The wine was drained off the skins and placed in 40% New French barrels.
